The JD2 Groover allows the fabricator to clean the excess weld sprue on the top and bottom faces of either reverse butt or corner welds. The JD2 comes equipped with adjustable back fences which can be easily rotated from 180° to 60°. There is also a fence setting which allows the user to clean cruciform welded joints. The JD2 is a floor standing machine operated by foot pedal and comes complete with top and bottom knives to customer's specification.

# Designing for your needs

Engineering and  
Design Expertise

Do you need a bespoke machine or tooling package to deliver a turnkey solution that will simplify your window and door fabrication?

With a unique manufacturing capability and hands-on industry knowledge, we analyse your requirements and challenges to establish the most relevant specialist machinery and bespoke tooling solution. We create digital assets of your requirements, allowing our design team to create software models and carry out physical pre-delivery trials.
